◇ Host Organization  
SupercomputingAsia 2026  
The International Conference on High Performance Computing in Asia-Pacific Region 2026

# SCA/HPCAsia 2026 is coming to Osaka, Japan!

The SupercomputingAsia (SCA) conference is a major annual international HPC event in Asia established in 2018. The conference is co-organized by HPC centers from Australia, Japan, Singapore, and Thailand, and has become a key networking and collaboration platform for the regional and global supercomputing community, for both the public and private sectors.

The importance of supercomputing is growing and expanding more than ever. Under the title “Everything with HPC - AI, Cloud, QC and the Future Society,” AI, cloud and QC communities along with supercomputing community are invited to get together to create the future.

## Jointly hosted by the leading international conferences on HPC:

The International Conference on High Performance Computing in Asia-Pacific Region (HPCAsia) is an international conference series for the Asia Pacific region on HPC technologies, that promote exchange of ideas, research results, and case studies related to all issues of high-performance computing.

In Osaka, SCA and HPC Asia cooperate again and jointly host SCA/HPCAsia 2026. The collaborative and collective strength from two of Asia’s established conferences creates synergy among key HPC researchers, academics, technology specialists and industry leaders from across the region and beyond.

## Opportunities and Benefits for Exhibitors:

- Showcasing your cutting-edge in developing supercomputing, AI, big data, cloud computing, quantum computing and semiconductors.
- Raising company profile through sponsorship activities.
